01 EXPERIENCE

JUL 2024 – FEB 2026	Enter · baupal GmbH SENIOR PRODUCT DESIGNER Energy retrofit platform for German homes and the teams delivering the work. - Rebuilt the on-site data capture workflow around AI-readable data, cutting survey time by 25% and increasing data completeness from 80% to 95%. - Designed an AI findings report homeowners viewed on site after the survey, shortening turnaround and capturing their intent for the renovation plan while trust was highest.
JUL 2021 – MAY 2023	Cooler Future GmbH LEAD PRODUCT DESIGNER Sustainable investing app for retail investors, iOS and Android. - Led product design from discovery to launch across research, app, website and design system. - Defined two target audiences through research and designed the KYC and account-opening flow, bringing in the first 1,000 users. - Designed transparent impact data that helped users understand and act on their investments.
FEB 2021 – JUL 2021	Something Creative SENIOR PRODUCT DESIGNER Digital product agency. Led discovery and delivery across client projects, from UX research through to shipped products.
MAR 2019 – DEC 2020	Bosch · Coup Mobility SENIOR PRODUCT DESIGNER Shared e-moped service operating 5,000 vehicles across Berlin, Paris and Madrid. - Redesigned the rider experience end to end, giving riders the right information throughout a ride. - Designed the first dedicated tools for fleet operations, including a dispatcher dashboard and field-worker app, moving operational work out of WhatsApp.
OCT 2017 – MAR 2019	Vivy GmbH PRODUCT DESIGNER · FOUNDING TEAM Allianz-backed digital health record for patients and doctors. - Designed how records move between patients and doctors, improving document retrieval. - Ran a design sprint with Allianz that shaped the medical billing flow.
OCT 2016 – OCT 2017	YunoJuno, Quidco, SuggestV FREELANCE PRODUCT DESIGNER Independent consultancy for startups and scaleups.
AUG 2015 – JAN 2017	CrowdScores PRODUCT DESIGNER Live football scores app.
